Rachael Marie Sosa died on September 21, 2015 in a car accident. Rachael loved art and was full of life and laughter. Many people didn't know that Rachael dealt with depression on a daily basis and always felt a need to be there for others. This scholarship represents her belief that we can all work through difficult times if we endure and support each other.

*On a separate sheet of paper, write about a time when you felt you were in a difficult place and what helped you get out of this difficult place **OR** a time when you helped another person out of a difficult place. Please type.*

***Since Rachael loved art if you would like to attach a sheet of paper of expressive art that would also be greatly appreciated.*
